## Clarence Kline

---

how many of you remember Mr Kline? We never got along but he was a good teacher. That was back in the days when teachers were really underpaid. They must not have gotten a paycheck in the summer. My mother very seldom shopped at Safeway, so imagine my surprise when i went in there with her and saw my teacher as one of the employees. He was a lot nicer to me than he was in school.

I remember him well. Loved when we could get him to debate us. His way of teching us made us sit up and listen and learn.  
I especially remember him everytime I vote and I never miss voting. He made us understand it was a privilage not a duty to vote.  
Remember I like Ike buttons and posters?
